

Clandestine Lab Response Training

Columbiana AL. Dec 2-6, 2019

Preparing Law Enforcement and First Responders for meth, fentanyl and other drug lab response!

More than 10,000 personnel have attended MERIT Training Programs' premier Clandestine Lab Response Course. Personnel are certified to process and supervise clandestine drug labs including methamphetamine, opioids, marijuana grows and BHO Labs. Students begin their training by learning how to visually identify, and articulate items used in clandestine drug operations. Later they identify the specific hazards found in the labs and choose the proper personal protective equipment necessary to safely respond. On their final day of training students will process an active clandestine drug lab. This is an OSHA compliant course and students graduate with field ready experience.

Topics include:

- Developing effective response protocols.
- Limitations and use of personal protective equipment.
- Identifying the items used in clandestine drug labs.
- Supervising an active drug lab incident.
